Dear Lakshmi,

Report on National Visualization Support - Q2 1997

During this period the following have been undertaken as part of the National Visualization Support Contract. For this 3 month period it represents approximately 12 days work.

Training Courses

WTH presented a lecture *An Introduction to Visualization* at the University of York.

In this quarter we presented the following five courses at Manchester: *An Introduction to Visualization using AVS/Express*, *Video In - Video Out*, *Molecular Visualization*, *Moving from AVS5 to AVS/Express,* and *An introduction to VRML*.

Mikael Jern will present a half-day seminar *Information Visualization on the WEB* on Monday 9th June.

We are running a series of seminars, with Manchester speakers alternating with external speakers. Programme attached.

Support Activities

We continue to monitor and maintain the Chest-Visual email list

We have started to plan a graphics supporters event for December 1997.

The Future

We have agreed with Dr Mumford the deliverables for next year, and await the formal notification from Dr Mumford.

Yours sincerely,

WT Hewitt
